RE: Mock Earthquake Training

April 27th, 2008, 8am

SCU EMS will sponsor its 2nd annual mock mass casualty incident (MCI). This event will serve as training for student EMTS to manage and execute a large scale incident in the form of a mock earthquake. The event also seeks to demonstrate the proficiency and stability within the student run program. SCU EMS plans to use success of the event to petition the University and private donors for additional grants and funding to be used specifically for MCI equipment and materials.

The event will take place on Sunday, April 27th, 2008 in the O'Connor building of Santa Clara University. Patient makeup and briefing will commence at 8am with treatment beginning at approximately 9:30am.
