

# SCU Emergency Medical Services

**www.scuems.com**

## *What We Are*

Founded in 1998, SCU EMS is a completely volunteer student run and organized program.

## *Why We Are Here*

The SCU EMS program is here to provide immediate healthcare to the community of Santa Clara University. We are in no way here to punish the students for drinking, smoking, etc. Our main priority is your health.

## *What you can get from SCU EMS*

- ❖ Amazing Leadership and life experience that you will receive nowhere else
- ❖ An opportunity to meet new people and gain new trusting friendships

## *What We Do*

- ❖ The SCU Emergency Medical Service provides after hours care for the campus community. These students are Certified Emergency Medical Technicians who assess injuries/illnesses and refer the patient to the appropriate health care provider

## *Training*

- ❖ SCU EMS holds a yearly EMT training program for students that are interested in becoming EMTs
- ❖ SCU EMS completes regular training and drills to keep up the medical skills and disaster knowledge of all our members so that we will be prepared to act in the event of an emergency

## *What is I'm already Certified*

SCU EMS is more than happy to welcome members that have been trained and certified in other areas.

## *Contact Us*

If you have any questions about our program or would like more information about how to join you can visit our website at [www.scuems.com](http://www.scuems.com) or you can contact our 2008-2009 Recruitment officer:
